Research papers

Revisiting the definitions of gypsic and petrogypsic horizons in Soil Taxonomy and World Reference Base for Soil Resources
J. Herrero 1

Rare earth elements and clay minerals of soils of the floodplains of three major rivers in Bangladesh
K. Egashira, K. Aramaki, M. Yoshimasa, A. Takeda and S. Yamasaki 7

Soil survey as a knowledge system
E.N. Bui 17

Polycyclic aromatic hydrocarbons of anthropogenic and biopedogenic origin in a colluviated hydromorphic soil of Western Europe
I. Atanassova and G.W. Brümmer 27

The impact of deforestation and pasture abandonment on soil properties in the wet tropics of Australia
V. Rasiah, S.K. Florentine, B.L. Williams and M.E. Westbrooke 35

Determining the petrographic fabric of a compacted soil using semivariance analysis: sample preparation and digital petrographic image analysis
C.G. Dillon and L.K. Philip 47

Numerical analysis of crack generation in saturated deformable soil under row-planted vegetation
S. Yoshida and K. Adachi 63

A generic framework for spatial prediction of soil variables based on regression-kriging
T. Hengl, G.B.M. Heuvelink and A. Stein 75

Spatial variation in wind-blown sediment transport in geomorphic units in northern Burkina Faso using geostatistical mapping
S.M. Visser, G. Sterk and J.J.J.C. Snepvangers 95

Changes in pore characteristics with depth for structural crusts
D.M. Fox, R.B. Bryan and C.A. Fox 109

Flow path visualization in a lignitic mine soil using iodine–starch staining
E. Hangen, H.H. Gerke, W. Schaaf and R.F. Hüttl 121

Inferring flow types from dye patterns in macroporous soils
M. Weiler and H. Flühler 137

Study of soil leachates in doline above the Béke Cave, Hungary
E. Tatár, V.G. Mihucz, K. Tompa, L. Pöppl, G. Záray and L. Zámbó 155

An evaluation of image analysis for measuring changes in void space and excremental features on soil thin sections in an upland grassland soil
P.M.C. Bruneau, D.A. Davidson and I.C. Grieve 165

A multi-step inflow method for estimating hydraulic conductivity at low pressure under the wetting process
H. Fujimaki, M. Inoue and K. Konishi 177

Effect of fermentation residue on the spectral reflectance properties of soils
J.A.M. Demattê, M.A.P. Gama, M. Cooper, J.C. Araújo, M.R. Nanni and P.R. Fiorio 187

Soil physical quality: Part I. Theory, effects of soil texture, density, and organic matter, and effects on root growth
A.R. Dexter 201

Soil physical quality: Part II. Friability, tillage, tilth and hard-setting
A.R. Dexter 215

Soil physical quality: Part III: Unsaturated hydraulic conductivity and general conclusions about S-theory
A.R. Dexter 227

Predicting regolith properties using environmental correlation: a comparison of spatially global and spatially local approaches
S.W. Laffan and B.G. Lees 241

Podzol formation in sandy soils of Finland
D.L. Mokma, M. Yli-Halla and K. Lindqvist 259
Physical protection of mineralizable C in aggregates from long-term pasture and arable soil
M.M. Pulleman and J.C.Y. Marinissen 273
Simulating trends in soil organic carbon of an Acrisol under no-tillage and disc-plow systems using the Century model
L.F. Carvalho Leite, E. de Sá Mendonça, P.L. Oliveirade de Almeida Machado, E. Inácio Fernandes Filho and J.C. Lima Neves 283
Change in the hydraulic properties of a Brazilian clay Ferralsol on clearing for pasture
L.C. Balbino, A. Bruand, I. Cousin, M. Brossard, P. Quétin and M. Grimaldi 297
Chemical characteristics and potential source of fulvic acids leached from the plow layer of paddy soil
N. Maie, A. Watanabe and M. Kimura 309
